

### Home Learning Pack - 20<sup>th</sup> July 2020

As you can see from the pictures, your child has been busy learning about lots of different things through the varied themes we have covered in Nursery. Please take the time in the Summer Holiday to explore and enjoy your surroundings and encourage your child to talk about what they see. Maybe your child can talk about the colours and shapes they can spot while playing in the garden or out on a walk. You could discuss what animals they may encounter on any outings and what they might look like. Read and write silly stories with them as their mind is amazing.

Most of all, stay safe and enjoy time together.

Regards,

Mrs Birt
